ABOUT ME

Graduate of B.Sc. "Business Computing and IT" and M.Sc. "Advanced Computer Science with Specialisation in Computer Security", actively seeking employment in software development, software security, or IT. Background includes independent external study for the development of software skills, strong experience with group projects of academic and professional nature, and a military service utilised under the IT department of the Hellenic Airforce.

WORK EXPERIENCE

10/02/2025 - CURRENT Athens, Greece

IT AUTOMATION ENGINEER SYNTAX INFORMATION TECHNOLOGY INC.

- Developed automation tools in Python and PowerShell for data, server, and application tasks
- Worked with BMC TrueSight Server Automation; certified on Windows/Linux environments
- Performed patch management for client infrastructure maintenance
- Coordinated with clients to automate workflows and improve service delivery
- Contributed to machine learning and data processing projects

12/09/2022 - 12/09/2023 Athens, Greece

SYSTEMS ADMINISTRATOR ASSISTANT HELLENIC AIRFORCE

Served in the IT department of the Hellenic Air Force as part of my military service in Greece, with responsibilities including:

- Main domain: Sysadmin (Systems Administrator)
- Installed and configured servers.
- Managing permissions, user accounts and access controls using Windows Server Filer Services.
- Performed regular backups and recovery operations.
- Troubleshot and resolved technical issues, ensuring system uptime.
- Collaborating in a team to develop web applications for internal systems of the Hellenic Air Force, mainly utilizing the React framework, enhancing digital accessibility and operational efficiency.

04/09/2020 - 21/05/2021 Athens, Greece

OPERATIONS AND IT INTERN SKYWALK TRANSPORT AND LOGISTICS

Placement working experience as part of my studies.

- · Audited two ERP systems for enhanced management of parcels, orders, and vehicles.
- Supervised a collaboration project with DB Schenker, overseeing communications, parcel order management, driver routing systems, and auditing processes.
- Maintained and developed the company's website using React 16, improving user interface and functionality.
- Provided technical support within the office, addressing and resolving a wide range of IT issues.
- Developed a calculator program with a GUI in C#, which halved the time spent on report creation and facilitated easier data visualization.
- Implemented an Access database as a quick and effective solution to meet the company's data management and storage needs, significantly improving organizational efficiency.

EDUCATION AND TRAINING

18/09/2023 - 18/09/2024 Manchester, United Kingdom

M.SC. ADVANCED COMPUTER SCIENCE WITH SPECIALISATION IN COMPUTER SECURITY University of Manchester

Automated Reasoning and Verification // Software Security // Modelling and Querying Data on the Web // Cyber Security and Cryptography.

Website https://www.manchester.ac.uk/ | Final grade Merit |

Thesis Research and Development of a Hybrid Network Intrusion Detection System (Python-based, Data-Analysis, ML)

14/09/2018 - 11/06/2022 Birmingham, United Kingdom

B.SC. BUSINESS COMPUTING AND INFORMATION TECHNOLOGY Aston University

- Key Modules: Database Applications [SQL, MSAccess] (79.6%), Applications Development [C#, C++] (82%), Systems Analysis (78%), Information Security (81%), Project Delivery (76%), BCIT Research project [Dissertation] (78%).
- Served as Student Course Representative for Business Computing and IT, conducting research and development for course enhancements. Proposed module-specific improvements that significantly influenced the degree experience.
- Gained leadership experience as Vice President of the Aston Bright Futures Society, part of the largest network of university societies with a focus on professional development in the UK.
- Played a pivotal role in organizing events, workshops, and networking opportunities for members, significantly contributing to their professional growth and the society's reputation.
- Earned the Societies Federation Silver Award for my contribution in the Bright Futures Society.

HOBBIES AND INTERESTS

Ethical Hacking and Hackathons

- Engaged in ethical hacking studies, including CaptureTheFlag and HackTheBox exercises. Actively seeking out events to enhance technical skills in practice, with ongoing courses in Linux and Red Teaming at HtB Academy.
- Contributed to team-based coding challenges at the Great Uni Hackathon 2023 and the StudentHack 2024 at the University of Manchester, enriching my experience in teamwork and coding.

Swimming

A dedicated swimmer since childhood, actively competing in university competitions, including BUCS racing. Represented Aston University during my undergraduate years and continued at the University of Manchester during my master's program. It is a sport that taught me about consistency and calmness through pressure, endurance through exhaustion and team building through training.

DRIVING LICENCE

Driving Licence: B 10/08/2018 – 10/08/2033
